Art Unit 1733

DETAILED ACTION

Election/Restrictions

1. Claims 26-32 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on November 10, 2003.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claim 33 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a new matter rejection.

This rejection is repeated from paragraph 6 of the Office action mailed April 8, 2004: the examiner has reviewed the portions of the specification indicated by applicants as supporting the subject matter of generic claim 33, however the examiner still cannot find support in the original disclosure for this generic language (for example, using only a single nest in the process of the invention; the overlay not having at least one predefined opening, at least one of the nests sealing around the respective at least one predefined opening of the overlay and the wheel to define the cavity into which the foamable liquid is injected; and disengaging the nests before foaming of the foamable liquid to completely fill the mold cavity).

Allowable Subject Matter

4. Claims 9-25 are allowed.
5. Non-elected process claims 27-32 have not been rejoined at this time because they do not incorporate or otherwise include all of the limitations of a generic or linking claim allowable in substance.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
